Consultant with 3+ years of experience delivering end-to-end Order-to-Cash and supply chain transformation across HighRadius, SAP, and Acumatica ERP. Skilled in system integrations, solution architecture, and automation of complex workflows to improve cash flow, operational efficiency, and customer experience. Proven track record of leading global deployments, optimizing payment processes, and driving enterprise adoption.

Skills

- **Business Domains:** Order-to-Cash (OTC), Supply Chain & Manufacturing, Financials, Inventory Management
- **Implementation Strategy:** End-to-End ERP/SaaS Implementations, System Integration, Solution Design, Data Migration, Software Configuration
- **Technical Tools:** HighRadius cloud solutions, SAP Business One (SAP B1), Acumatica ERP, Siemens Opcenter, APS, MySQL/MSSQL
- **Integrations:** API Integrations, Payment Gateways (ACH, Credit Card), WPA Systems, Bank/Processor Integrations
- **Project Management:** Agile Methodology (Jira/Confluence), SDLC, Stakeholder Management, Client Enablement, Release Management, Feature Prioritization
- **Analysis & Documentation:** Requirement gathering, Feasibility & Gap Analysis, BRD, FRD, Business Process Analysis (As-Is & To-Be), Business Blueprints (BBP)
- **Testing & QA:** User Acceptance Testing (UAT), System Integration Testing (SIT)

Experience

2025-04 - 2026-02 **Consultant**
[HighRadius](#), Hyderabad, India

- Led the end-to-end implementation of HighRadius solutions by conducting comprehensive client workshops for requirement gathering, process documentation, and tailoring workflows to specific Order-to-Cash cycles.
- Configure EIPP portal settings, payment gateways, and automated invoice routing logic to ensure seamless ERP, bank, and processor integration to support secure, seamless payments, and data synchronization.

- Led the EIPP rollout for [Sherwin-Williams](#), automating the presentment of over 40,000 invoices monthly, and reducing manual processing time by **30%**.
- Resolved critical invoice processing bottlenecks for [Traffix](#) by optimizing their WPA system and API integrations, ensuring 99.9% successful automated invoice delivery to support timely Collections.
- Facilitated client workshops for User Acceptance Testing (UAT) and managed end-to-end deployments, driving a 40% increase in customer portal adoption within the first three months of go-live.
- Deployed self-service payment and dispute resolution portals, directly supporting Collections teams by accelerating dispute resolution times and improving cash flow.

2024-11 - 2025-04

Senior Implementation Consultant

[Moraabh Technologies Private Limited](#), Bengaluru, India

- Led the end-to-end MES Integration of Siemens Opcenter APS with enterprise ERP systems, ensuring seamless bidirectional data flow for production, inventory, and capacity planning.
- Performed complex MES Configuration by mapping ERP master data (BOMs, routings, and work centers) to Opcenter modules to automate manufacturing demand forecasting and production scheduling.
- Conducted gap analysis of supply chain workflows to implement automated MES and planning solutions, significantly reducing manual intervention in the manufacturing execution process.
- Expanded role to support the pre-sales cycle, leading technical discovery and delivering tailored system demonstrations for Stage 1 and Stage 2 Sales Qualified Leads (SQL1 & SQL2) to accelerate pipeline conversion.

2022-11 - 2024-11

Implementation Consultant

[BatchMaster Softwares](#), Indore, India

- Managed full-lifecycle ERP deployments for SAP (Business One) and Acumatica (Process manufacturing & Quality Management) suits, driving projects from kickoff, requirement gathering, through go-live, and post go-live support.
- Spearheaded the technical Development and Integration of Siemens Opcenter (APS/MES layers) with Acumatica ERP to enhance shop-floor visibility and real-time data synchronization.
- Directed complex Manufacturing Execution System (MES) and ERP rollouts for U.S. clients ([Andy's Seasoning](#), [Innovative Textile](#), [Homeland Vinyl](#)), configuring core modules spanning process/discrete production, inventory, and specialized Warehouse Management System(WMS) integrations

Education

2022-07

Bachelors of Technology: Computer Science

Rajiv Gandhi Proudhyogiki Vishwavidyalaya

- 7.6 CGPA

2017-06

Higher Secondary Education (Class XII): M.P. Board

Siddhi Vinayak Public School

- Final Grade: 86%

2015-05

Secondary Education (Class X): CBSE Board

Delhi International School

- 8.4 CGPA

Accomplishments

- SAP B1 Credits for Administration, Financials, Inventory, Production, Sales & Purchase Module.
- Appreciation from Project director for implementing ERP-Opcenter integration, seamless execution and post-go-live stability.
