

# AVANISH KUMAR

## React.js & Next.js Developer

Faridabad, Haryana, India | 7834873044 | [avanishkumarr8@gmail.com](mailto:avanishkumarr8@gmail.com) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

### PROFESSIONAL SUMMARY

Frontend Engineer with 3+ years of experience building scalable, high-performance web applications using React.js and Next.js. Strong background in state management, micro-frontend architecture, API integration, and database-driven applications. Experienced in delivering enterprise-grade products across fintech, HR, and SaaS domains. Passionate about clean code, performance, accessibility, and building user-focused interfaces.

### TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Frontend:** React.js, Next.js (SSR, SSG), Redux, Redux Toolkit, Redux-Saga, Context API, MicroFronted
- **UI & Styling:** Material-UI, Ant Design, Bootstrap, Tailwind CSS, Styled Components
- **Databases:** MySQL, Firebase
- **APIs & Tools:** REST APIs, Axios, OpenAI API, WebSockets
- **Dev & Collaboration:** Git, GitHub, Bitbucket, AWS (EC2, S3), Postman, Jira
- **Engineering Principles:** Component-Based Architecture, Responsive Design, Performance Optimization, Code Reviews, Agile/Scrum

### PROFESSIONAL EXPERIENCE

#### Software Engineer – Frontend

Feb 2024 – Present

*Datopic Technologies*

*Gurugram, Haryana*

- Migrated large React applications to Next.js, implementing SSR and SSG for better performance and SEO
- Built and maintained complex HR dashboards using React, Material-UI, Bootstrap, and CSS-in-JS
- Designed scalable state management architecture using Redux-Saga for handling asynchronous workflows
- Integrated OpenAI APIs for intelligent CV parsing and data extraction in recruitment systems
- Developed reusable UI components and followed best practices for accessibility and responsiveness
- Participated in sprint planning, code reviews, and architectural discussions in Agile teams
- Guided junior developers on React patterns, performance tuning, and maintainable code

#### Software Development Engineer I

Mar 2022 – Jun 2023

*IDC Technologies*

*Noida, Uttar Pradesh*

- Developed enterprise banking and fintech applications using React.js, Redux, and Ant Design
- Implemented secure authentication flows using Firebase SMS OTP
- Integrated REST APIs using Axios with PostgreSQL backend systems
- Built reusable UI components to maintain consistency across large applications
- Optimized frontend performance using code splitting and modular architecture
- Followed secure coding standards and collaborated with QA and backend teams

### KEY PROJECTS

- **Datopic HR Platform & Marketing Website** – React & Next.js based HR management system. Material-UI and React-strap driven UI. Redux-Saga for complex application state. PostgreSQL-backed data architecture.
- **Nuestack Technologies SaaS Platform** – Responsive web application built using React.js. Context API for global state management. REST API integration with MySQL backend.
- **Loan Origination System (Fintech)** – Secure banking workflows with React and Redux. OTP authentication using Firebase. Responsive UI with Bootstrap.
- **Kisan Munch Agricultural Platform** – Marketplace platform using React, Redux, Ant Design. API integration and authentication using Firebase.

### EDUCATION

#### Master of Computer Applications (MCA)

Jul 2019 – May 2022

*J.C. Bose University of Science and Technology, Faridabad*

*CGPA: 8.05/10*
